# MatchHub

## Live Soccer Match Tracker

*By: Jeanne Exantus, Shari Li, Elianny Rodriguez, and Jeremy Jimenez*

# Why MatchHub?

Our website, ***MatchHub*** is an application for users to keep track their soccer matches

- ➔ User will able to input the soccer team names, the date of the match, and the time of the match
- ➔ Each match will be categorized as upcoming, ongoing or completed

This site is also for soccer fans as users will be able to view and access soccer stats from the *Major League Soccer(MLS)*

# List of Technologies

- **HTML** *(for the framework of the webpages)*
- **CSS** *(for visual styling)*
- **Javascript** *(for interactivity & dynamic behaviors)*
